

Popham Beach Inspired Collection, *Daunis*®

Popham Beach Inspired

How the Water Carves the sand at Popham Beach into these forms has inspired the Bracelets and Ring forms shown here. The bracelet was carved out of pewter originally and then a mold was made and it was cast into gold as shown here and in Sterling as shown in the center piece.

The Sterling version was set with Oval Tanzanite, Blue Topaz and Diamonds set in 14k yellow gold bezels. The ring of the same collection is shown in 14k brushed gold with an oval Tanzanite and square and round Diamonds.
